## SKILLS

Frontend:

React, HTML, CSS, JavaScript

Backend

Node.js, JAVA, C#

Soft Skills

Critical Thinking, Problem Solving skill,  
Good Communication

## PROJECTS

### Dream Nest

I developed DreamNest, a full stack MERN web application for booking hotels, villas, and accommodations. The platform features user authentication, property management, reservation handling, and an intuitive admin panel.

### Closet

Closet is an e-commerce fashion app offers exclusive collections, AI-driven recommendations, and app-only deals. It ensures a smooth shopping experience with secure payments, real-time tracking, and a user-friendly interface, making fashion more accessible and personalised.

### Handy Help

I developed a PHP website for managing users and workers with role-based access, user search, and OTP-based password recovery. Optimised database queries and improved UI with pagination and filtering for a seamless experience.

## CERTIFICATION

Google Data Analytics

Google - 2023

Pearson Test Of English

PTE - 2024

Advanced Java

Infosys - 2024
